1st Pres Church, and McCormick's Book End

A SPECIAL DELTA RENAISSANCE MESSAGE ABOUT--Black History Month.

This is an educational opportunity to honor, highlight and learn about the significant contributions of African-Americans. It is a series of occasions to give respect to the men and women who courageously stood up to challenges, injustices and legal and social barriers to pursue equality and freedom.

I truly believe it is important to shine a spotlight on all those pioneers who have made important contributions to the arts. African-American artists played a crucial role in changing hearts and minds, pushing our country to re-evaluate the meaning of freedom and justice for all. African-American artists are a treasured part our cultural diversity and strengthen our land's reputation as an international destination for the arts.

I appreciate very much the unique impact the artists from the Delta has had , locally as well as nationally. It is my pleasure to celebrate this heritage not only during Black History Month, but also throughout the coming years.

Now, be sure to tune in DELTA FOX-10, every Saturday @ 1:00pm.

To see the full version of "Delta Renaissance" ... and visit with our special guests.

This week we will talk to the history maker himself Mr. REUBEN HUGHES.

Also, Tune in and stay connected to your culture, right here on WABG and DELTA FOX-10

Be sure to send me your cultural arts info to:
